EDUCATION

Bachelor of Technology in Computer Science, GLA University, Mathura — **Expected June 2027**
Intermediate, Oxford Model Senior Secondary School, Kanpur — **May 2023**
High School, Oxford Model Senior Secondary School, Kanpur — **May 2021**

INTERNSHIP / TRAINING EXPERIENCE

Smart Full Stack Development (JOVAC'25), GLA University, Mathura — **June 2025 - July 2025**
Full Stack Development Trainee

- Developed frontend applications using HTML, CSS, and JavaScript, and backend fundamentals with Node.js and Express.js.
- Built REST APIs, handled server-side logic, and gained practical experience with client-server architecture.

PROJECTS

Alumni Bridge Platform — **Mar 2026 - May 2026**
React.js | Node.js | Express.js | MongoDB | Socket.IO

- Developed a full-stack alumni networking and mentorship platform with role-based dashboards, implementing secure JWT authentication, protected routes, and REST API's for role-based access control and scalable backend communication.
- Built real-time chat, live notifications, discussion forums, mentorship workflows, job postings, and event management using Socket.IO deployed a production-ready MERN architecture with AI-powered assistance features.
- Built role-based dashboards and data-driven modules for users, mentorship, job postings, events, and communication workflows, strengthening understanding of access control, structured data management, reporting-style interfaces, and user workflow management.

ShopNest-Full Stack E-Commerce Platform — **June 2026 - July 2026**
React.js |Redux Toolkit | Node.js | Express.js | MongoDB | JWT | Razorpay | Cloudinary

- Developed a full-stack MERN e-commerce platform with secure JWT authentication, role-based authorization, protected routes, and RESTful APIs for product, user, and order management.
- Implemented dynamic product listings, shopping cart management using Redux Toolkit, secure Razorpay payment integration, order tracking, and Cloudinary-based product image uploads.
- Built user and admin dashboards with product management, order history, and analytics modules, strengthening understanding of database operations, state management, backend security, and end-to-end e-commerce workflows.

TaskFlow – SaaS Task Management & Collaboration Platform — **March 2026**
React.js | Node.js | Express.js | MongoDB | JWT | REST APIs

- Developed a full-stack MERN task management platform with Kanban-style boards, workspace management, and collaborative task workflows to streamline team productivity and project tracking.
- Implemented secure JWT authentication, role-based collaboration, and RESTful APIs for managing users, boards, task assignments, priorities, deadlines, and CRUD operations using Node.js, Express.js, and MongoDB.
- Built interactive drag-and-drop task boards with workflow stages (To Do, In Progress, Review, Done), along with dashboard analytics, task search, and activity tracking for efficient project monitoring.

SKILLS

Programming Languages: Java, JavaScript,SQL
Backend & Web Technologies: Node.js, Express.js, REST APIs, MongoDB, JWT Authentication, Socket.IO, Zod
Frontend Technologies: React.js, Redux Toolkit, HTML, CSS
Tools & Platforms: Git, GitHub, GitHub Actions, npm, Postman, Render, Vercel, Figma, Cloudinary
Concepts: OOP, Role-Based Access Control, API Security, Middleware Design
AI & Automation: RAG, Prompt Engineering, Claude Code, Codex
Soft Skills: Effective Communication, Interpersonal Skills and Leadership, Research & Analytical Problem Solving

PROFESSIONAL ACHIEVEMENTS / INSIGHTS

- HackerRank SQL Certification - Demonstrated SQL skills.
- Claude Code Certification - Learned AI-assisted coding, code generation, debugging and developer workflow automation using claude code.

DECLARATION

I hereby declare that all the above mentioned information is true and correct to the best of my knowledge.
